

Impact Validation Report

Thank you for funding the removal of plastic and other marine debris from our coastlines. Your leadership in contributing to ocean plastic cleanup helps protect humans and wildlife from the devastating impacts plastic pollution can have. Working together, we must continue to cleanup the environment while we work to address the problem of plastic pollution at its core. For trusting us with your contribution, you deserve to know the impact you have enabled.

This report provides evidence of that impact.

Contributor	Logan Good
Amount Collected	4 pounds
Cleanup Date	February 8, 2020
Cleanup Location	Coney Island Creek Park, New York City, USA
